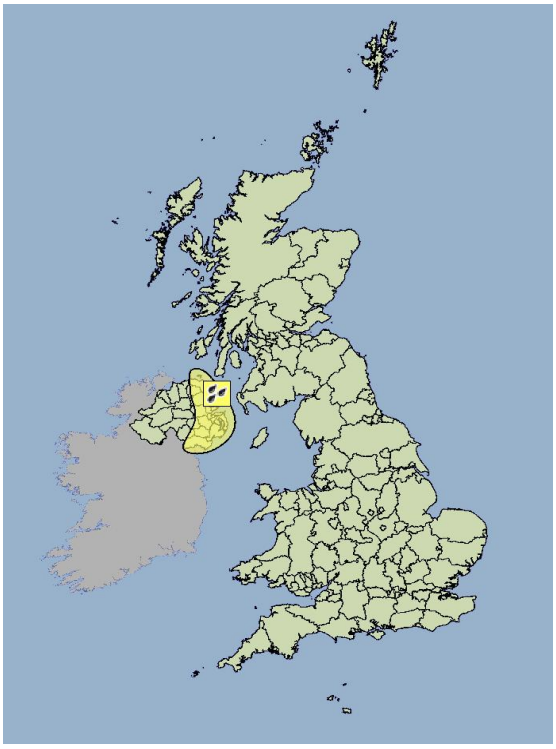
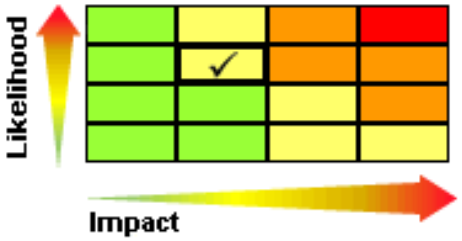
National Severe Weather Warning Service





Chief Forecasters Assessment
A band of heavy rain will move north across the warning area with widespread 15-20 mm, isolated 30 mm, expected in a 6 to 9 hour period. There is some uncertainty regarding the exact westward extent of the heavy rain.

Additionally, a spell of snow will bring a few centimetres to high ground, mainly above 200 metres, but some temporary accumulations are also possible at lower levels for a time during the evening.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **17:00 on Fri, 03rd Feb 2017** until **02:00 on Sat, 04th Feb 2017**

A period of heavy rain is expected to affect eastern parts of Northern Ireland during Friday evening.

Localised flooding is possible and driving conditions will be difficult due to surface water and spray on the roads.
